

# NICE recommends

## Thopaz+ portable digital chest drainage device

„The case for adopting Thopaz+ for managing chest drains is supported by the evidence. Thopaz+ can reduce drainage time and length of stay in hospital, and improves safety for people with chest drains. Its use may also improve clinical decision-making through continuous, objective monitoring of air leaks and fluid loss.“

Allows for  
**COST SAVINGS**  
of up to 550 £  
per patient

Improves  
**SAFETY** for  
patients with  
chest drains

**SHORTENS**  
hospital stay  
due to shorter chest  
tube duration
